Company	Active	Description
Vault Innovation Group <i>Senior Frontend Engineer</i>	01/15/2022 - Current	Collaborate with team members in the SDLC process to deliver high-quality software to e-commerce and SaaS clients. Extend multiple React-based frontend codebases with new features, and implement thoroughly tested updates. Support all code updates and features with documentation ensuring code quality and concise communication between clients and team members.
Tumulty Web Services <i>Owner, Lead Developer</i>	10/31/2020 - Current	Provide web development and custom software solutions to small businesses, startups, e-commerce companies, and agencies. Solutions include creating small business and event marketing websites, automation APIs, designing SaaS platforms, and building custom features within existing projects.
Udacity <i>Session Lead (Contractor)</i>	02/01/2022 - Current	Instruct weekly sessions with 30+ students per group to review frontend development and software engineering concepts. Provide 1:1 help sessions and office hours to students. Conduct code reviews, focusing on technical accuracy and clear communication.
Scarinci Hollenbeck, LLC <i>Lead Web Developer</i>	12/14/2013 - 5/1/2021	Led the initiative to overhaul the company's website to use a JAMstack architecture improving site performance and removing friction with integrating new technologies and services. Designed internal tools and APIs that automated attorney marketing efforts and business initiatives.
